## EDUCATION

### 14 public school, Batumi, Georgia — *10th grade student*

2022 – Present

Currently enrolled in 10th grade while independently developing strong skills in web development, programming, and software engineering fundamentals alongside formal education.

### Web Development Courses

**Full-Stack Web Development Course (9 Months)**
HTML, CSS, JavaScript, React, Git, Node.js, Express
Developed multiple frontend and full-stack projects demonstrating real-world application of modern web technologies, clean code practices, and version control.

**Frontend Development Course (3 Months)**
HTML, CSS, JavaScript fundamentals with emphasis on responsive layouts, styling, and basic interactivity.

## PROJECTS

**Movie Finder** — Full-Stack Web Application
Developed a movie discovery platform with authentication, mood-based filtering, and personalized recommendations.
Tech: React, Node.js, MongoDB
GitHub: https://github.com/shota-chikvaidze/Movie-finder

**Movie Database** — Full-Stack Web Application
Built a full-stack movie database application featuring authentication, user profiles, comments, ratings, and movie management.
Tech: React, Node.js, MongoDB
GitHub: https://github.com/shota-chikvaidze/Movie

**Dental Clinic** — Full-Stack Web Application
Developed a modern, fully responsive dental clinic website with appointment booking, service listings, multilingual support, and an admin dashboard.
Tech: React, Node.js, MongoDB
GitHub: https://github.com/shota-chikvaidze/Dental-clinic

**Messenger App** — Real-Time Web Application
Created a real-time messaging application with authentication, friends system, and live chat functionality using WebSockets.
Tech: React, Node.js, Express, Socket.io, MongoDB
GitHub: https://github.com/shota-chikvaidze/Messenger

## SKILLS

HTML,
CSS,
Tailwindcss,
JavaScript,
Typescript,
React,
Node.js,
Express

## LANGUAGES

Georgian – Native
English – Intermediate

## Location

Batumi, Georgia

**Retro Zone** — Frontend Web Application
Designed a stylish furniture shop concept featuring elegant UI, product pages, and visual filtering.
Tech: React
GitHub: https://github.com/shota-chikvaidze/Retro-zone

**Weather App** — Frontend Application
Built a responsive weather application based on Frontend Mentor designs, fetching and displaying real-time weather data.
Tech: React, OpenWeatherMap API
GitHub: https://github.com/shota-chikvaidze/Frontendmentor-weather
