EDUCATION

Public School #14, Batumi, Georgia — 10th grade student

2022 – Present

Studying while independently developing strong skills in web development, programming, and software engineering fundamentals alongside formal education.

Web Development Courses

Full-Stack Web Development Course (9 Months)

HTML, CSS, JavaScript, React, Git, Node.js, Express

Developed multiple frontend and full-stack projects demonstrating real-world application of modern web technologies, clean code practices, and version control.

Frontend Development Course (3 Months)

HTML, CSS, JavaScript fundamentals with emphasis on responsive layouts, styling, and basic interactivity.

PROJECTS

AI Learning Platform (Production) — Built and launched a full-stack AI learning platform with live users, featuring interactive lessons, onboarding flows, and Georgian-language UI. Includes user authentication, progress tracking, and an AI-powered content system.

Tech: React, TypeScript, Node.js, Express, MongoDB, Tailwind CSS

Live: uplearn.ge

Messenger App — Real-Time Web Application

Created a real-time messaging application with authentication, friends system, and live chat functionality using WebSockets.

Tech: React, Node.js, Express, Socket.io, MongoDB

GitHub: <https://github.com/shota-chikvaidze/Messenger>

Movie Finder — Full-Stack Web Application

Developed a movie discovery platform with authentication, mood-based filtering, and personalized recommendations.

Tech: React, Node.js, MongoDB

GitHub: <https://github.com/shota-chikvaidze/Movie-finder>
